

# BizApps Academy

## BizApps Academy Benefits

- Gain a competitive edge
- Develop key business and technical skills
- Receive world class professional development and support
- The state-of-the-art curriculum
- Need only a web browser to access the Academy's hosted lab environment, available 24X7
- Courses developed and taught by domain experts

## Course Offerings

- Courses based on industry requirements
- Industry and role focused courses
- Custom courses as per the requirements
- Class room sessions with hands-on training
- Project work and case studies

### OnCall – Contact Center Training

The courses are designed to provide students with the training needed to succeed in the Contact Center industry. The emphasis is on the listening and speaking abilities, and in-depth understanding of the voice processes and applications used.

### MedPro – Medical Process Training

The courses equip the students with the knowledge of the US Medical Processes, and train them for the various processes therein – Transcription, Coding, Billing and Collections.

### BApT – Business Applications Training

Business Applications are the key to a business organization's success. AppCaliber has mastered this art, and is imparting the same to its students. The courses are targeted towards technical and functional streams, ultimately aimed at strengthening the IT and the business.

**BizApps Academy** is managed by **AppCaliber India**, the Indian operations of **AppCaliber, Inc. USA**, which provides business applications expertise to Global 2000 companies. <http://www.appcaliber.com>

*The global economy is a reality; and the competitive bar is set high for the corporations. As a leader in the Business Applications space and with **40 years of collective experience**, AppCaliber knows first hand, the skills that are needed to succeed in today's marketplace.*

*The **BizApps Academy** equips the professionals with the technology and business skills needed for the 21<sup>st</sup> century.*

## Trained Resources for your Company

We can recruit resources for you and train them as per your requirements. Our stringent selection criteria and rigorous training ensures that you get quality resources that are productive from the day one. We source resources from the technical and management institutes, as well as get experienced resources to suit your requirements.

## Training your Trainees

We can train your new resources, as per your requirements, so you do not need to worry about the training, thus focusing your time and energy on building your business.

## Corporate Training

We work with you to design training programs as per your business focus, for your experienced resources. Our training methodology and hands-on experience, ensures that you get trained resources for your projects.

## Hosted environment

There is absolutely no technical setup required – all you need is a web browser! You are **100% free** from the burden of technical maintenance.

## Always Available – 24 X 7 access

Students have access to the environment **24 X 7**, and lots of reference materials and latest updates.
